Experience

Ciranta it services / Jul 2022 - Present

Ui/Ux designer

- Designer with **1.9 years** of experience, a solid understanding of user-centered design principles, and a history of producing significant results.
- I have a solid understanding of design tools, a sharp eye for design, and the capacity to transform user requirements into visually appealing interfaces.
- I'm naturally collaborative and excel in cross-functional teams, where I facilitate open communication.
- I am committed to creating smooth and engaging experiences that engage people and promote company success, from user research to prototype and implementation.

I have worked in the below areas :

- E-commerce websites
- I have done design in ERP
- Backend screen design on Database management
- Frontend framework (HTML, CSS, Bootstrap)
- Designed Business websites and Wedding venues websites

Wolferstech / May 2022 - Jul 2022

linternship - Ui/Ux

- I created a user-centered design project for a mobile application the CakeShop app is a blend of interesting features that easily connects our customers with our brand.
- A special feature in our app was that customers can customize the cake while ordering
